

HARU

GENERAL DESCRIPTION

This newly launched HARU portable, stacking and ganging chair with automatic tip up seat from Kotobuki Seating Group will prove to be the most comfortable, aesthetically pleasing and lightweight seat option in its category.

Manufactured in America that guarantees short lead times, competitive pricing and superior service.

The seat back cushion shaping reduces body fatigue and provides ergonomic comfort that matches the comfort level of the most discerning fixed seating models.

The natural wood durable cladding can enhance acoustics requirements.

Magnetic Row ID and seat numbering is available on request.

APPLICATIONS

Be it black box theatres, performance venues or multi use spaces this versatile seat meets the needs of the everchanging public assembly seating requirements.

The HARU seat model meets all North American code standards, and the geometry allows application is a 36-inch row spacing.

For use on the floor, to increase seating capacity, for moveable seats to accommodate wheelchair positions or as temporary seating on telescopic or fixed raked seating arrangements this seat does it all.

Available in fully upholstered, wood outside back and or under seat pan versions. HARU seat model will respond to the aesthetic needs of the design intent.

STANDARD FABRIC/METAL BLACK

HARU

GANGING / NESTING FEATURES

By connecting the ganging hooks as illustrated to the right you can easily connect the seats to the row length desired. The nesting feature allows the chairs to be moved aside, nested and stacked on storage carts or stacked vertically for storage.

STORAGE CARTS

The single, horizontal storage cart overall height is 45" to the flat surface. The horizontal double stack cart will measure 78" to the top of the upper seat back. This allows the unit to travel through a standard door size. Individual storage carts may also be customized to accommodate total seat quantity and available storage footprint.

TESTING NA STANDARDS

Seat passed 600 lbs. - Static load test
Back passed 450 lbs. - Static Horizontal pull test

**HORIZONTAL 12 SEATS -
VERTICAL 6 SEATS**

CUSTOM 14 SEAT DOUBLE STACK STORAGE CART
